BIBLIOGRAPHY

Manuscripts

1. Authored by The Age-Related Eye Disease Study Research Group [Full list is in Arch Ophthalmol 2004;122:716-726].

11. A randomized, placebo-controlled, clinical trial of high-dose supplementation with vitamins
C and E and beta carotene for age-related cataract and vision loss. AREDS Report No. 9.

12. The National Eye Institute Visual Function Questionnaire in the Age-Related Eye Disease
Study (AREDS). AREDS Report No. 10. Clemons TE, Chew EY, Bressler SB, McBee W

13. Potential public health impact of the Age-Related Eye Disease Study results. AREDS

14. Impact of antioxidants, zinc, and copper on cognition in the elderly. A randomized,

15. Associations of mortality with ocular disorders and an intervention of high-dose
antioxidants and zinc in the Age-Related Eye Disease Study. AREDS Report No. 13.

16. Responsiveness of the National Eye Institute Visual Function Questionnaire to
Progression to Advanced Age-Related Macular Degeneration, Vision Loss, and Lens

17. Correlation analysis of the In-clinic and Telephone batteries from the AREDS Cognitive
Function Ancillary Study. AREDS Report No. 15. Ophthalmic Epidemiology. 2005:12:271-
277.

19. The Age-Related Eye Disease Study severity scale for age-related macular degeneration.

20. A simplified severity scale for age-related macular degeneration. AREDS Report No. 18.

21. Risk factors associated with the incidence of age-related macular degeneration in the Age-
2005;112:533-539.

22. The Relationship of Dietary Lipid Intake and Age-Related Macular Degeneration in a
Case-Control Study: AREDS Report No. 20, Archives of Ophthalmology. 2007;125:671-
679.

23. Centrum use and progression of age-related cataract in the Age-Related Eye Disease
2006;113:1264-1270.

24. The relationship of dietary carotenoid and vitamin A, E and C intake with age-related
macular degeneration in a case-control study. AREDS Report No. 22. Archives of
Ophthalmology. 2007;125(9):1225-1232.

37. Changes in lens opacities on the age-related eye disease study grading scale predict progression to cataract surgery and vision loss: age-related eye disease study report no.

AREDS Collaborative Manuscripts

**Abstracts and Presentations**

1997

1998

1999

2000

2001

30. The Results of the Age-Related Eye Disease Study (AREDS), European Association for Vision and Eye Research (EVER) Meeting, Alicante, Spain, Oct 2002.

2004

53. Estimated rates of progression to advanced AMD and vision loss by baseline maculopathy status: Results from the Age-Related Eye Disease Study (poster). Lindblad AS, Clemons TC, Seddon JM, Friberg TR, Klein R, Klein BEK, Bressler SB, Age-Related Eye Disease Study (AREDS) Research Group. Annual Meeting, Association for Research in Vision and Ophthalmology (ARVO), Fort Lauderdale, FL, Apr 2004.

2005

62. The effect of AREDS supplementation on visual acuity loss in eyes with advanced AMD. Friberg TR, Chew E, Clemons TE, Bressler S, Age-Related Eye Disease Study (AREDS)

64. Dietary lipids intake and incident advanced Age-Related Macular Degeneration (AMD) in the Age-Related Eye Disease Study (AREDS). SanGiovanni JP, Chew EY, Clemons TE, Seddon JM, Klein R, Age-Related Eye Disease Study (AREDS) Research Group. Annual Meeting, Association for Research in Vision and Ophthalmology (ARVO), Fort Lauderdale, FL, May 2005.

2006

2007

82. Visual Acuity Loss Associated With Advanced AMD Fundus Lesions and With the Simplified AREDS AMD Severity Scale. Chew EY, Clemons T, Milton R, Davis, MD, Ferris...
